MESSAGE FROM

# Vice Chancellor

*I have become my own version of an optimist. If I can't make it through one door, I'll go through another door - or I'll make a door. Something terrific will come no matter how dark the present -*  
Rabindranath Tagore

I have the pleasure and privilege in introducing the first batch of aspiring managers of Xavier Business School (XBS) of St. Xavier's University, Kolkata.

The aim of the AICTE approved Xavier Business School is not just to produce managers. We endeavour to create future leaders of industry and the country; leaders who believe we can and thus we begin to see opportunities all around. The Xavier Business School, equipped with all the facilities available in the best business schools in the country, is offering a two-year postgraduate programme in business administration with specialization in finance, marketing, human resource and systems.

In a MBA Course the Summer Internship Programme (SIP) is very important as the students get exposed to direct first-hand business or industry experience during this internship programme. The students get an overall understanding of the real business world and industrial operations in SIP, which supplement and complement their theoretical class room knowledge including dealing with case studies.

We are hopeful that the XBS students will get good opportunities of SIP in esteemed organisations, which will be their life time experience.

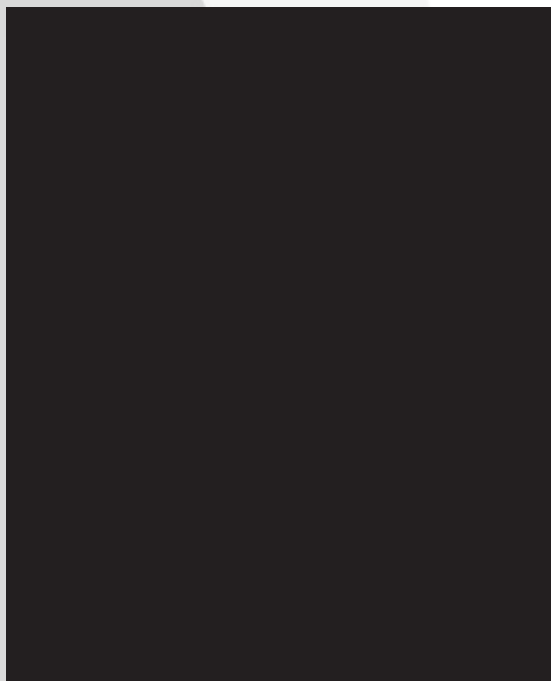

I wish the students all success.

**Rev. Fr. Dr. J. Felix Raj, SJ**

# The Dean

Xavier Business School (XBS) is committed to academic excellence and in shaping its students to lead in business and industry. However, while doing so it instills value education among its students, which is most important for today's managers.

The business environment today is immensely competitive, transcending boundaries and embracing new technology at a very fast pace. Managers need to continuously update their knowledge base and develop competencies and new skill sets.

Xavier Business School (XBS) of St. Xavier's University, Kolkata (SXUK) started its journey in August, 2018 equipped with up to date curriculum to cater to the contemporary needs of the business and industry. Apart from dedicated faculty, the regular exposure to captains of industry to familiarize the students with current business trends is an added endeavor of XBS.

Students are encouraged to apply theoretical knowledge to real-life scenarios, making them capable of handling any kind of problems in the real situation and to solve them. Access to high quality online resources and the best books bring awareness to the students about latest development in theory as well as practices. Regular visits to industrial sites also give them a clear idea of business operations.

As a member of Xavier Association of Management Institutes (XAMI) it is networked with all the premier B-schools run by the Jesuits, a Catholic Order, known for its excellent contribution in running educational institutions including premier B-Schools in the country and abroad.

The practice of Individual mentorship in XBS not only extends to handholding in academic affairs but also to taking care of the holistic development of the students to pass out with competence, zeal, freshness, commitment, and capability. We believe that the benchmark in the teaching-learning process should be higher than the requirement in the practical fields, so that trained and qualified MBA pass outs are capable of handling any situation in real world.

We would like to welcome you to visit our campus for Summer Internship Placement and interact with the highly motivated future leaders of the industry whose participation and contribution would benefit your organization.

wish all my students very successful Summer Internship Placement.

**Dr. Soma Sur**
